**QUALITY CONTROL ASSESSMENT METHODOLOGY**

**CITRUS PACKER SHORT COURSE**

**September 5, 1990**

**Ben Hill Griffin Hall**

**Citrus Research & Education Center**

**Lake Alfred, Florida**

**Welcome, Introductions, Meeting Format**

**9:00 - 9:30 AM Room 2**

**Concurrent sessions A, B & C**

**9:30 - 11:00 AM A, B, C**

**11:00 - 12:30 PM A, B, C**

**12:30 - 1:30 PM Lunch**

**1:30 - 3:00 PM A, B, C**

**Session A: Room 1**

**Session B: Room 2**

**Session C: Room 3-4**

**General Session: Summary, Record keeping**

**3:00 - 4:00 PM Room 2**

## FORWARD

This Quality Control Assessment Methodology Short Course was created for the needs of citrus packers in Florida. There are many measurement devices available to citrus packers. Some packers own and use pH meters, chlorine kits, ethylene analyzers, etc. Some packers just own them. Others still need to obtain them. Constantly changing personnel makes it necessary to retrain key people on the use of these devices. The purpose of this Short Course is to begin this process. The responsibility for training remains with the packinghouse, but help can be found from our group and from equipment/chemical suppliers.

This Short Course will include more "how to" than most meetings. The success of this day will depend largely on your participation with questions and discussion. The subject matter was developed through several meetings with members of the Florida Citrus Packers. The Proceedings were prepared by the authors especially for this Short Course. You are encouraged to use and share these Proceedings with others and to call us with your questions and comments.

The Florida Citrus Packers are handling the expenses of this meeting, including lunch, the printing of these Short Course Proceedings, and other related expenses. Their assistance makes a Short Course like this possible.

The Fresh Fruit Working Group at Lake Alfred welcomes your questions and will strive to assist with your projects and problems. Please feel free to call any of us and we will answer your questions or attempt to find someone who can help you.
