Because of COVID-19 limitations, we have moved Packinghouse Day to a webinar format that will be held on August 20th, starting at 9:30 a.m. We have another great program (see below) including talks on phytosanitary and regulatory issues, the status of citrus markets, food safety/COVID-19 issues (including Q&A session), HLB-tolerant hybrids, and updates on decay control and pesticide maximum residue limits.

While participation is FREE, everyone must register beforehand this year! Click [Here](https://ufl.zoom.us/webinar/register/WN_Efotq14nREqcXh7K6gaBEA) To Register from a PC, Mac, iPad, iPhone or Android device, or use the following link:

Upon registration, connection information and the ability to add to Outlook, Google, or Yahoo calendar will be provided from Zoom.

Please also send me (ritenour@ufl.edu) your food safety and COVID-19 questions to be addressed during the Food Safety and COVID-19 session of the program.
